PROFILE SUMMARY

Full-Stack Developer with a strong foundation in web development and software engineering. Proficient in modern technologies such as React.js, Next.js, and MongoDB, with a proven ability to design, develop, and maintain scalable web applications. Passionate about delivering user-centric solutions and collaborating in Agile environments.

SKILLS & COMPETENCIES

Technical Skills:

- **Programming Languages:** JavaScript, TypeScript, Golang
- **Frontend Frameworks & Libraries:** React.js, Next.js, Tailwind CSS
- **Backend Technologies:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, MySQL, Prisma, Mongoose, Firebase
- **Tools & Platforms:** VS Code, Git, Docker
- **Other Expertise:** State Management (Redux Toolkit), SSR/CSR

Soft Skills:

- Effective Communication
- Problem Solving and Analytical Thinking
- Team Collaboration

EXPERIENCE

Freelance | Full-Stack Developer

July 2024 – Present

- Designed and developed responsive web applications using Next.js, React.js, and Tailwind CSS.
- Built and integrated backend services with Node.js, Express, and MongoDB to ensure scalability and reliability.
- Collaborated with clients to gather requirements and provide tailored software solutions.
- Managed the full development lifecycle, including deployment and maintenance.

SRIFOTON 2024 | Volunteer - Software Engineering

August 2024 – November 2024

- Developed and maintained responsive web applications using Next.js and Tailwind CSS, optimizing cross-device user experience.
- Implemented secure authentication and database integrations using Firebase.
- Collaborated within an Agile team to deliver high-performance features on tight deadlines.

Google Developer Group on Campus Sriwijaya University | Backend

January 2024 – Present

- Learned and implemented backend technologies such as Golang, REST API development, and database management.
- Participated in organizing and managing web development events.
- Engaged in community-driven learning and mentorship to enhance technical and soft skills.

Minilemon Studio | Backend Developer (Internship)

January 2024 – Present

- Worked on backend business logic, REST API development, and microservices architecture.
- Implemented containerized applications using Docker.
- Contributed to scalable backend solutions ensuring performance and security.

HMIF UNSRI | Academy Department - IT Development Division Staff

February 2024 – Present

- Member of the Information Technology Development Division, contributing to the technical aspect of HMIF.
- Participated in the development and maintenance of the HMIF website.
- Engaged in discussions and implementations of innovative IT solutions for the organization.

SELECTED PROJECTS

- **Gemini Clone:** Replicated key features of the Gemini platform using React.js and Tailwind CSS. Focused on user interface design and core functionality.
- **Management Department Landing Page:** Designed a profile page for the Management Department at Graha Karya University, leveraging Next.js for frontend, Node.js for backend, and MongoDB for data storage.
- **WhatsApp Chatbot:** Developed a chatbot integrated with Node.js and the Baileys library to handle automated responses to incoming messages.
- **SRIFOTON 2024:** Developed responsive web applications using Next.js, Tailwind CSS, and Firebase, contributing to a scalable and user-friendly platform for event management.
- **HMIF Website 2025:** Full-stack website using Next.js and Firebase, featuring member, competition, seminar, and program management, plus email subscription via Nodemailer.

EDUCATION

Universitas Sriwijaya

2024 – Present

- Pursuing a Bachelor's degree in Computer Science with a focus on web development, programming, and software engineering.
